

LOOP CONTROL

PAGE NO.: 13

Type of Loop Control

- while loop
- do-while loop
- For loop

WHILE LOOP

```
①  
while (condition)  
{  
  // code block to Run  
}
```

```
int i = 0;  
while (i < 5)  
{  
  ②  
  System.out.println(i);  
  i++;  
}
```

DO - WHILE

```
do {  
  // code block to Run  
} while (condition);  
②
```

```
int i = 0;  
do {  
  System.out.println(i);  
} while (i < 5);
```

* **Notes:** do-while loop Run the code first then check the given condition.

FOR LOOP

```
①  
For (int i = 0; i < 5; i++)  
{  
  ②  
  System.out.println(i);  
}
```
